

Just keep moving

Find out about the stars of Disney-Pixar's Finding Dory Your character introduction sheet

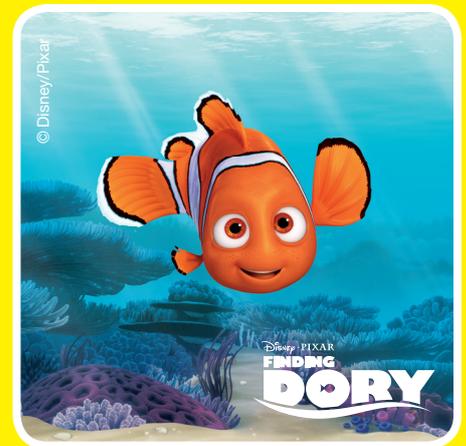

Use this intro sheet to familiarise yourself and your class with all the characters that have inspired your PE lesson plans and 10 Minute Shake Up activities.

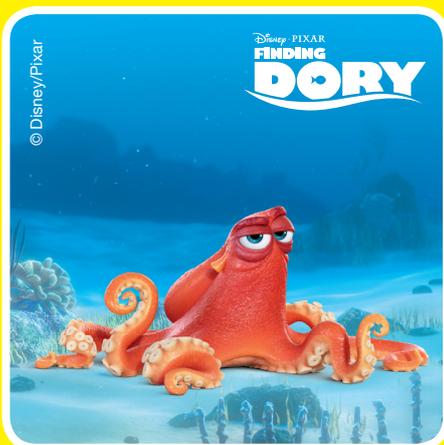

DORY is a bright Blue Tang fish with a sunny personality. She is on a mission to find her family and suffers from short-term memory loss.

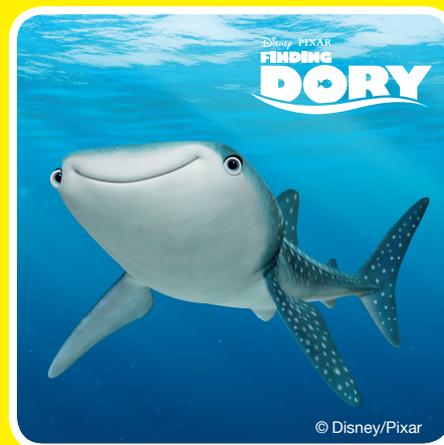

MARLIN may have travelled across the ocean once, but that doesn't mean he wants to do it again. The Clownfish may not be funny, but he's loyal.

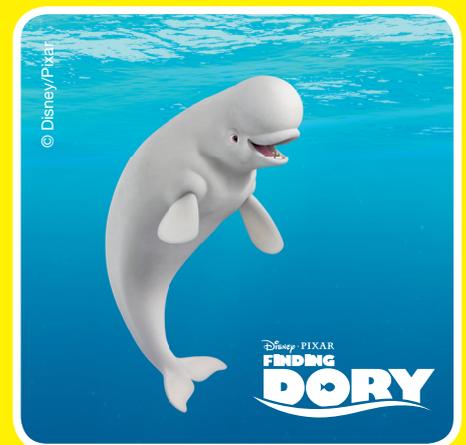

NEMO is back to being a normal kid. He may be a young Clownfish with a lucky fin, but Nemo wholeheartedly believes in Dory. After all, he understands what it's like to be different.

HANK is an Octopus. Actually, he's a "Septopus": he lost a tentacle somewhere along the way. But Hank is just as competent as his eight-armed peers. He is also excellent at camouflage and moving around without being spotted.

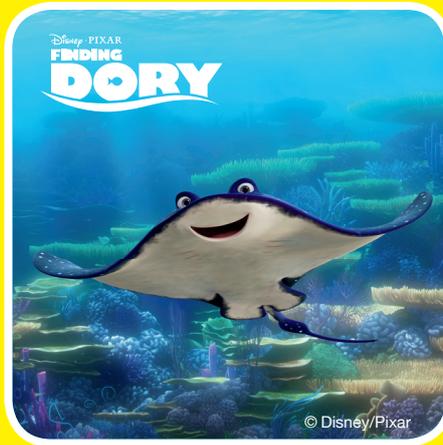

DESTINY may be a clumsy swimmer, but she has a big heart. Everything about Destiny is big - actually, Whale Sharks are the biggest fish in the sea.

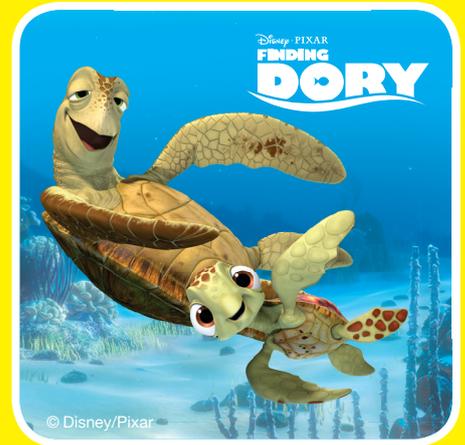

BAILEY is the Marine Life Institute's resident Beluga Whale who is convinced he can no longer use his biological sonar skills.

FLUKE and **RUDDER** are a pair of Sea Lions that enjoy their down time on a rock just outside the Marine Life Institute.

MR. RAY is the tune-loving teacher from the reef, who takes Nemo's education – and that of his fellow undersea students – very seriously.

CRUSH and his **SQUIRT** just might be the coolest Turtles in the ocean. They're always happy to lend a flipper to a fish in need.

OTTERS are seriously cute. Seriously, who can resist their sweet, furry faces?
